PROFESSIONAL SUMMARY

Entry-level Python Developer and Software Engineer with hands-on experience in backend development, REST API design, and Object-Oriented Programming. Proficient in Python, Flask, SQLAlchemy, SQLite, and SQL, with a solid foundation in the Software Development Life Cycle (SDLC) and Agile methodology. Independently designed, developed, and deployed full-stack applications, integrating REST APIs and version-controlling all work with Git/GitHub. Strong problem-solving ability and a track record of shipping production-ready projects; seeking an entry-level Python Developer, Software Developer, or AI/ML Engineer role.

TECHNICAL SKILLS

Programming Languages: Python, SQL, HTML, CSS

Frameworks & Libraries: Flask, SQLAlchemy, Pandas, NumPy, Streamlit

Databases: SQLite, MySQL, DBMS, NoSQL (Basics)

Web Technologies: REST APIs, JSON, HTTP, HTML5, CSS3, API Integration

Backend Development: REST API Design, CRUD Operations, Authentication, Password Hashing, ORM (SQLAlchemy), Unit Testing

Tools & Platforms: Git, GitHub, Postman, Render, VS Code, Power BI, Excel

Core Concepts: Object-Oriented Programming (OOP), Data Structures, SDLC, Agile, Scrum, Debugging, Problem Solving

Version Control: Git, GitHub (branching, pull requests, collaborative workflows)

INTERNSHIP EXPERIENCE

Python Development Intern — Oasis Infobyte (OIBSIP)

Jul 2026 – Aug 2026

- Completed a series of Advanced-tier Python projects — including a Weather Application (Tkinter GUI, OpenWeatherMap REST API integration), BMI Calculator (Tkinter GUI with SQLite-backed history tracking), Random Password Generator, and multi-user Chat Application (socket programming, threading) — under mentor guidance.
- Applied Object-Oriented Programming principles and structured problem-solving to deliver clean, functional Python code against fixed task deadlines.
- Used Git and GitHub for version control across all deliverables and followed SDLC and clean-coding practices throughout.

Python Development Intern — Zaalima Development Pvt. Ltd.

Aug 2026 – Present

PROJECTS

Medicine Reminder App | Python, Flask, SQLite, SQLAlchemy, REST API, HTML, CSS

May 2026 – Jun 2026

- Architected and deployed a full-stack medicine reminder application using Flask and SQLAlchemy, with automated scheduling and secure CRUD-based tracking for recurring medication.
- Designed and implemented RESTful APIs with full CRUD functionality, cutting manual medicine-tracking effort by approximately 70% for end users.
- Shipped a production-ready build on Render via Git/GitHub and validated all endpoints with Postman, achieving zero critical bugs at launch.

Smart Job Tracker | Python, Streamlit, SQLite, Pandas

Apr 2026 – May 2026

- Built an interactive job-tracking dashboard in Streamlit, enabling real-time filtering and end-to-end application status management.
- Implemented search, filter, and CRUD logic to streamline job search workflows, reducing application review time by approximately 50%.
- Delivered data-driven insights through a CSV export feature and analytics dashboard, deployed on Streamlit Community Cloud, managing 50+ job entries.

Additional Projects (Oasis Infobyte OIBSIP): Voice Assistant (Python, SpeechRecognition, pyttsx3, Requests, OpenWeatherMap REST API — voice commands, text-to-speech, Google search, weather lookup, app launching, and reminders); Weather Application (Python, Tkinter, OpenWeatherMap REST API — real-time temperature, humidity, wind-speed lookup); BMI Calculator (Python, Tkinter, SQLite — GUI-based classification with history tracking); Random Password Generator (Python, Tkinter); Multi-user Chat Application (Python, Tkinter, Socket Programming, Threading — real-time client-server messaging).

CERTIFICATIONS & TRAINING

- Infosys Springboard — Python Programming, OOP, DBMS, SQL, NoSQL (Mar–Apr 2026); Software Engineering & Agile Development, Agile Scrum in Practice (Apr–May 2026)
- Tata — Cybersecurity Analyst Job Simulation, Forage (Jan 2026) | NIT Trichy Pragyan — Python Programming Workshop (Feb 2025)
- NoviTech R&D Pvt. Ltd — Artificial Intelligence (May–Jun 2025) & Data Analytics (Feb–Mar 2025) | LinkedIn Learning — Excel Essential Training (Nov 2025)

EDUCATION

M.I.E.T. Engineering College, Tiruchirappalli, Tamil Nadu

Sep 2022 – May 2026

B.E. in Electronics and Communication Engineering | CGPA: 8.6/10

HSC – 92% | SSLC – 95%
